

GRAFTON MAYOR CHRIS WEST INVITES YOU TO ATTEND ...

Business and Community Development Town Hall

Did you know 40-80% of economic growth comes from existing businesses – businesses that have already invested substantial resources into our community?

Join our public town hall meeting to hear the findings of more than 30 local business-owner/operator interviews that have been conducted as part of a regional business retention and expansion program. Input has been sought on COVID impacts, state of the business community, and ideas for the future.

Who should attend?

Those interested in the economic health and future of the Grafton community, such as:

- Business owners/managers
- Chamber of Commerce members
- Lenders and bank officials
- City Council members
- Economic Development Committee members
- Walsh County Job Development Authority
- Grafton School District
- Walsh County Commissioners
- Interested area residents
- Media
